

Many hotels in the Citôtel network have conference and meeting rooms that can be equipped as required for your conferences, seminars or off-site meetings: Internet access, wifi connection, video projection, paper-board, television and DVD player...

Upstream organisation is offered to ensure that you have a perfect working ambience in a unique location. Citôtel is available to ensure that your business events are a complete success.

Our hotel teams can also provide advice on sports, cultural or specific ludic events in the region you have chosen, should you wish; a simple and authentic way of clearing the mind after a working session.

Naturally, our restaurants are available with appropriate menus or buffets for savoury breaks when needed.

For further information, contact the hotel involved or Citôtel.
